

- Total Customer Value
- Single Source for Both Fixturing and Robotic System
- Flexible & Versatile
- Design Only, Build Only, or Design & Build Fixturing

FIXTURING

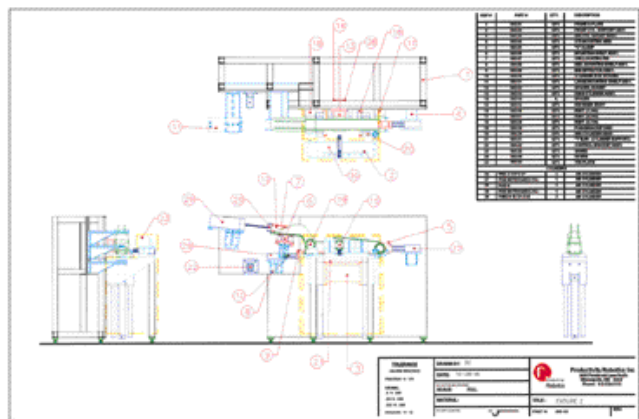

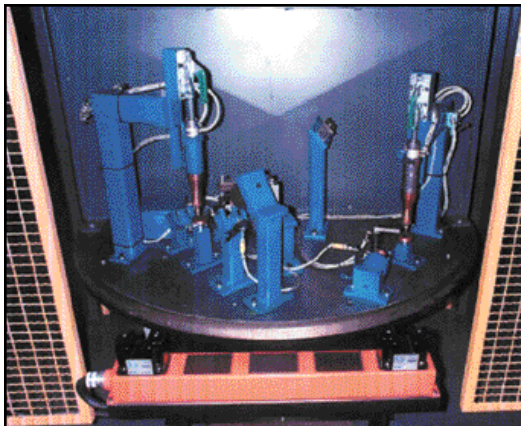

PRI ROBOTICS

PRI Robotics provides maximum customer value with in-house fixture design and build. This critical capability assures on-time delivery with flexibility throughout the design, build and prove-out process to meet customers' specifications.

ADVANTAGES OF IN-HOUSE FIXTURING

- Reliable delivery
- Better performance
- Lower price

Creatively Applying Robotic Technology to Improve Customer Performance, Profitability and Working Environment
